DEPARTMENT OF COMPUTER APPLICATIONS

VISION

A common vision for a computer science department is to become a leading centre for excellence in computer science education, research, and innovation, fostering ethical and globally competent professionals who contribute to societal advancement and technological progress.

MISSION:

- To impart high standard value-based technical education in all aspects of Computers through the state of the art infrastructure and innovative approach.
- To produce ethical, motivated, and skilled graduates through theoretical knowledge and practical applications.
- To impart the ability for tackling simple to complex problems individually as well as in a team..
- To develop globally competent engineers with strong foundations, capable of "out of the box" thinking so as to adapt to the rapidly changing scenarios requiring socially conscious green computing solutions.
